RESORT 2024

RESORT '24, This Side of Paradise

A longing for humidity and jungle, a simple suitcase packed with durable and wearable classics. A collection built on a fantasy escape with a reality rooted in everyday transitional dressing.

For this collection, we focused on shapes that breathe and move, circulating air and light with every step. The Aarty Dress is a new shape designed with this collection in mind. Wear the dress on its own for hot weather dressing, or layered with a pant for a transitional look. We love her full bodice and detailed, romantic gathering at the neckline.

This collection is our paradise.

This lookbook was shot by our team at our production partner's studios in Jaipur, India where each SZ Blockprints piece is lovingly hand block printed by our team of artisans.
